Profile Summary

Azure DevOps Engineer with a strong foundation in cloud infrastructure and automation on Microsoft Azure. Knowledge of CI/CD pipelines using Azure DevOps, Infrastructure as Code with Terraform, and containerization using Docker. Focused on improving deployment efficiency and following DevSecOps best practices through projects and hands-on learning.

Core Skills

- | | | |
|----------------|----------|-------------------|
| • Terraform | • Docker | • Azure Cloud |
| • Git/GitHub | • Linux | • PowerShell |
| • Azure DevOps | • Bash | • CI/CD Pipelines |

Professional Experience

DevOps Engineer Intern — DevOps Insiders

Dec 2025 – Present

- Built and managed Infrastructure as Code (IaC) using Terraform to automate Azure resource provisioning across environments.
- Designed and deployed core Azure services: Resource Groups, VNets, VMs, Storage Accounts, Load Balancers, Application Gateways, etc.
- Collaborated with cross-functional teams to ensure DevSecOps practices, incorporating security into CI/CD pipelines.
- Created and maintained Dockerfiles to containerize applications, following best practices for image size, security, and performance.
- Automated creation of custom Azure VM images using HashiCorp Packer, reducing VM provisioning time and ensuring standardized, secure base images across Dev/Test/Prod.

Education

- **Bachelor of Engineering (2027)** — Rajkiya Engineering College, Azamgarh, Uttar Pradesh.
- **Higher Secondary School (2022)** — Government Inter College, Prayagraj
- **High School Certification (2020)** — B Balak Das UVM, Ghazipur
